

Draft specification

Electric Wardrobe lift BUTLER 730

- Cabinet width 60.0 - 160.0 cm

- RAL 9003 Signal White

Manufacturer: Granberg

Article Info

BUTLER 730 provides electric height adjustment up to 70 cm, lowering the clothes rail to a comfortable reach at the touch of a button. The rail moves out and down towards you for easier access and overview, and you can stop at exactly the height you prefer.

The result is better ergonomics and freed-up space below for wire baskets, shelves, or shoes.

The design is inclusive, comfortable for everyone and works especially well for wheelchair users.
