

Unilift 870

Kitchen appliance lift

Unilift 870

Kitchen appliance lift

UNILIFT lifts a panel upwards and outwards from the bottom of a floor or wall cupboard. It can be used to lift food processors, microwaves or other household appliances.

A simple push of a button adjusts the height of the panel to the optimum working height.

Quick facts

- ✓ Lifts up heavy household appliances to a convenient height
- ✓ Can be stopped at optional height
- ✓ Simple to install in the bottom of a floor or wall cupboard
- ✓ Can be fitted in new or existing cupboards
